ULTIMATE MAN

FOR THINNING AND BALDING HAIR
IMPROVES COMPLEXION

LITHOTHAMNIUM CALCKERIUM

- 100% Organic mineral supplement derived from a unique source of sea algae.
- Supplies Calcium, Magnesium and over 70 other highly bio available minerals and trace elements.
- Contains hair and skin re mineralising factors
- Porous physical structure and large surface area of 9.5m² / gram results in a minimum of 96% solubility.

SAW PALMETTO

- Derived from the fruit of the Saw palm
- Keeps testosterone levels balanced and blocks DHT

As men age, the testosterone hormone diminishes and the hormone 5 α -Dihydrotestosterone (DHT) increases. The cause of hair loss is often due to the hair follicles' sensitivity to DHT, which is a male androgen hormone that causes follicles to shrink, resulting in a shorter hair life span and decrease of hair growth.

Normally after hair falls out, another hair starts to grow from the same follicle - when DHT is high, hair growth decreases. Saw palmetto has the power to stop the conversion of testosterone into DHT, making it beneficial for hair growth, improved libido and prostate health.
