THE HEART OF A BUSY PRACTICE

Digital 1000

Its rounded edges, flat screen and no seams are not for aesthetic reasons but mainly for hygienic reasons, eliminating opportunities for dirt to get trapped. The panel has sensi-touch buttons that respond to the touch of a finger, which completely protects them against wear and tear.

- Digital drive with constant needle frequency
- Sensi-Touch operation
- Safety hand piece with "Easy-Turn-Depth" system
- Safety needles
- Nano needles – 0,2 mm and 0,25 mm
- 20 different needle formations
